

## Pre-K-3 Marshmallow Constellations

a bag of mini-marshmallows, toothpicks, diagrams of your favorite constellations

Visit Mr. Printables to find a copy of the summer constellations map or use this set of Constellation Knowledge Cards so you can see the star patterns for each one.

Either print out or draw the constellations you will create (we used black paper with white colored pencils to draw ours).

Use dots for each of the stars and lines to frame the constellation's shape.
